YOU'RE INVITED TO INTERSECT 2019!

We are excited to announce that we will again be hosting this year's **INTERSECT 2019** conference, along with sponsors General Electric, ScottMadden and Southern Company. **INTERSECT 2019** is an invitation-only, executive-level, energy conference that will facilitate discussions around the most substantive challenges facing our nation's energy system through technological, financial and policy-based considerations. Past keynotes have included Admiral Bob Willard, NYPA CEO Gil Quiniones, Southern Company CEO Tom Fanning, and DOE Secretary Dr. Ernest Moniz, who set the stage for provocative discussions and this year promises to be no less exciting.

This year's theme, The New Energy Ecosystem, will explore how the nation's energy system and functions - including suppliers, customers, markets, and expertise - are evolving. **INTERSECT 2019** will explore how the underlying ecosystems that power these energy systems are evolving. What will the energy company of the future look like? What platforms will deliver energy services? Who will reap the benefits of this transformation and how will they be distributed? What other opportunities and challenges will arise in this new ecosystem?

We look forward to hearing back from you and hope to see you at **INTERSECT 2019!**
